

**Why Should You Attend?**

The goal of this forum is to provide information to Cape Cod towns that are currently engaged in wastewater management planning activities. This forum will provide attendees with an overview of the decision making process, evaluation criteria, economic/environmental impacts, and solution options for their wastewater management needs. The goal of the sponsoring organizations is to address wastewater issues in a manner that incorporates good science, appropriate technologies and acceptable legal and financial means of implementation that will protect and restore sensitive water resources while maintaining economic sustainability.

**Who Should Attend?**

Anyone who is interested in, or who is involved with their community's wastewater management planning activities may be interested in attending this workshop. In addition, the following individuals or groups should attend:

- Local Officials
- Planners
- Designers/Engineers
- Board of Health members
- Watershed associations
- Concerned Citizens
